## Center for Independent Living

EMPOWERING INDEPENDENCE

## What is a Center for Independent Living?

Centers for Independent Living (CIL) are community-based, cross-disability, non-profit organizations that are designed and operated by people with disabilities. CILs are unique in that they operate according to a strict philosophy of consumer control, wherein people with all types of disabilities directly govern and staff the organization.

Our service area covers approximately 30,000 square miles of frontier, rural, and urban Idaho. We serve Ada, Adams, Blaine, Boise, Camas, Canyon, Elmore, Gem, Gooding, Lincoln, Jerome, Owyhee, Payette, Washington, Twin Falls, and Valley Counties, and part of the Duck Valley Reservation.

## Centers for Independent Living Provide Five Core Services:

- Independent Living Skills Training
- Individual and Systems Advocacy
- Information and Referral
- Life Transitions
- Peer Support

## Our Center also provides:

- On-demand transportation services in southern Idaho
- Temporary ramps and assistive technology
- Self-directed in-home care services

## What you can expect:

When you call LINC, you will likely talk with an Information and Referral Specialist, who will gather more information about your needs and goals. If you need support or resources beyond information and referral, you will be connected with an Independent Living (IL) Specialist. An IL Specialist is responsible for working with all ages and types of people with disabilities in setting and maintaining goals to become independent or maintain one's independence in the community.
